

Upright Flowering Cherry

Akebono Cherry

Prunus x yedoensis 'Akebono'

Height: 25'
Width: 25'
Zone: 5
Leaf: Glossy dark green leaves; Golden-yellow with orange highlights in the fall
Bloom/Fruit: Prior to leaves emerging, large semi-double white to pink flowers fading slightly as they age; Fragrant; Fruits are showy-black drupes displayed in early fall
Bloom time: April
Growth Habit: Spreading, arching crown that turns more horizontal with age; Wide spreading branches

Canada Red Cherry

Prunus virginiana 'Schubert'

Height: 25'
Width: 20'
Zone: 2
Leaf: Foliage emerges green in spring and turns purple into summer; Fall color is golden-yellow to orange
Bloom/Fruit: White flowers emerge with leaves; Fragrant; Pea-sized berries that ripen to dark purple-black in August
Bloom time: April to May
Growth Habit: Very hardy small oval tree

Kwanzan Cherry

Prunus serrulata 'Kwanzan'

Height: 30'
Width: 20'
Zone: 5
Leaf: Bronze foliage emerges in late spring turning dark green in summer; Yellow to orange-bronze fall color
Bloom/Fruit: Dark pink double blossoms just before and while leaves emerge; Fruitless
Bloom time: April
Growth Habit: Vase-shape, ascending branching; Spreading-rounded crown

Okame Cherry

Prunus x incamp 'Okame'

Height: 15'
Width: 20'
Zone: 6
Leaf: Glossy dark green leaves; Turn showy shades of bronze-red to bright orange-red in fall
Bloom/Fruit: Rosy-pink blooms with red calyces and reddish flower stalks emerge prior to leaves; Mildly fragrant; Fruitless
Bloom time: March to April, early blooming for the species
Growth Habit: Symmetrical upright rounded crown; Moderate growth habit; Polished reddish-brown bark

Yoshino Cherry

Prunus x yedoensis

Height: 30'
Width: 30'
Zone: 5
Leaf: Dark green leaves; Yellow with bronze tints in fall
Bloom/Fruit: White, sometimes tinged pink 3 to 6-flowered clusters (racemes) emerge prior to leaves; Fragrant; Followed by 1/2" black cherries
Bloom time: Late March to April
Growth Habit: Upright spreading branches; Broadly rounded open crown

Weeping Flowering Cherry

Double Subhirtella Cherry

Prunus subhirtella 'Pendula Plena Rosea'

Height: 25'
Width: 25'
Zone: 5
Leaf: Dark green foliage; Yellow to bronze fall color
Bloom/Fruit: Light pink to rose-pink weeping floral display prior to leaves; pea-sized blackish-fruits in late summer
Bloom time: April
Growth Habit: Graceful weeping form; Reddish-brown mahogany-like bark

Little Twist® Cherry

Prunus incisa 'Carlton LT'

Height: 6'
Width: 5'
Zone: 5
Leaf: Green leaves; Bright orange to deep maroon fall color
Bloom/Fruit: Tight clusters of white bell-shaped flowers with pink centers emerge prior to foliage; Fruitless
Bloom time: Spring
Growth Habit: Grafted at 3'; Slow growth; Unique zig-zagging shots and stems

Pink Snow Showers™

Prunus x subhirtella 'Pisnshzam'

Height: 30'
Width: 25'
Zone: 5
Leaf: Lush glossy green throughout growing season; Golden fall color
Bloom/Fruit: Single-pink flowers cascade down the stems prior to leaves emerging; Small black inedible fruit in fall
Bloom time: Early spring
Growth Habit: Vigorously growing weeping cherry; More heat tolerant than Double Subhirtella; Resists polyphagous shot hole borer

Snow Fountains® Cherry

Prunus subhirtella x cv, 'Snofozam'

Height: 12'
Width: 12'
Zone: 5
Leaf: Green leaves; Attractive orange and gold foliage in the fall
Bloom/Fruit: Snow-white flowers on cascading branches; Small sparse inedible black fruit
Bloom time: April
Growth Habit: Available ground budded, grafted at 5 1/2' and 4'; Cascading compact weeping habit; Ideal for small yards; Slow grower; Very disease and insect resistant

Weeping Extraordinaire™

Prunus x subhirtella 'Extrazam'

Height: 15'
Width: 15'
Zone: 5
Leaf: New foliage is copper-red turning shiny hunter-green; Bugundy fall color holds leaves longer
Bloom/Fruit: Large fluffy double light pink flowers emerge with leaves; 1/3" black fruit (few)
Bloom time: Mid-spring
Growth Habit: Vigorous weeping habit

Flowering Plum

Crimson Pointe™ Plum

Prunus cerasifera 'Cripoizam' US PP19,564 P3

Height: 20'

Width: 5'

Zone: 4

Leaf: Leaves emerge copper-red turning yellow-green, with increasing maturity to orange-red, at full maturity assumes a deep-purple, darker than the species; Bright red-orange fall color

Bloom: Profusion of light pink buds open to single-white flowers prior to leaves emerging

Bloom time: Spring

Growth Habit: Dense upright very columnar habit; Rapid growth; Forms large caliper trunk at an early age

Krauter Vesuvius Plum

Prunus cerasifera 'Krauter Vesuvius'

Height: 20'

Width: 15'

Zone: 5

Leaf: Emerge deep red and mature to showy dark purple foliage

Bloom: Profuse light pink flowers appear before foliage; Fragrant; Showy edible fruit

Bloom time: April

Growth Habit: More upright and oval-rounded than Thundercloud; Tolerant of hot-dry climates

Newport Plum

Prunus cerasifera 'Newport'

Height: 20'

Width: 20'

Zone: 3

Leaf: Reddish-purple foliage retains color throughout the growing season

Bloom: Single, delicate white to light pink blooms appear with leaf buds; Dull purple fruit

Bloom time: April

Growth Habit: Hardy and spreading, rounded habit; Adapable to extremes and hartier than Thundercloud

Thundercloud Plum

Prunus cerasifera 'Thundercloud'

Height: 20'

Width: 20'

Zone: 5

Leaf: Emerge ruby-red and mature to dark reddish-purple foliage, richest of the flowering plums and retains excellent color throughout the growing season

Bloom: Light pink blooms appear with leaf buds; Followed by small edible purple plums up to 1" diameter

Bloom time: April

Growth Habit: Upright growth with dense rounded head

Flowering Pear

Aristocrat® Pear

Pyrus calleryana 'Aristocrat'

Height: 40'

Width: 28'

Zone: 5

Leaf: Waxy green foliage; Brilliant purple-red to orange fall color

Bloom: White blossoms appear with leaf buds; Small russet fruit

Bloom time: April

Growth Habit: Broadly pyramidal maturing to an oval with strong central leader; Tolerant of wet or dry conditions; Disease and insect resistant

Chanticleer® Pear

Pyrus calleryana 'Glen's Form'

Height: 40'

Width: 15'

Zone: 5

Leaf: Glossy light green summer foliage; Fall color ranges from red to burgundy

Bloom: Abundant white flowers before leaves emerge

Bloom time: April

Growth Habit: A tight narrow pyramidal tree, almost columnar; Thornless ornamental pear

Jack® Pear

Pyrus calleryana 'Jaczam'

Height: 15'

Width: 10'

Zone: 4

Leaf: Rich glossy green foliage; Excellent red-purple fall color

Bloom: Covered in showy white flowers before leaves; Non-edible 3/4" yellow-green fruit in summer (inconspicuous)

Bloom time: Spring

Growth Habit: Dwarf form, semi-upright habit grows only half the size of the species; Branching structure forms dense, compact closely spaced habit giving a very symmetrical look

Redspire Pear

Pyrus calleryana 'Redspire'

Height: 35'

Width: 25'

Zone: 5

Leaf: Glossy foliage is dark green; Rich shades of yellow, red or purple in the fall

Bloom: Masses of large white flowers before leaves emerge

Bloom time: Spring

Growth Habit: Pyramidal and symmetrical shape with a tight branching habit; Fast growing

Trinity™ Pear

Pyrus calleryana 'Sylvania'

Height: 30'

Width: 25'

Zone: 5

Leaf: Very glossy light green foliage; Fall color ranges from orange to red

Bloom: Profusion of single white flowers followed by leaves

Bloom time: Early May

Growth Habit: Smaller than other cultivars with a tightly rounded head
